

How To Navigate Car Line

Our goal is to make car line safe for our students and staff and as efficient as possible for you. We strive to provide an expedient, orderly process for student drop off and pick up because we need to move a great number of cars through car line in a short amount of time. Everyone's safety depends upon the collaborative effort of all of us following these procedures carefully. Thank you in advance for your cooperation and diligence.

Morning car line begins at 7:40 am and ends at 7:55 am. Do not drop students off prior to that as there is no supervision. Please pull forward to just before the horseshoe turn before stopping your car; this allows several cars to drop off their students at once. **Do not stop in front of the sanctuary doors unless all the cars in front of you are stopped;** this backs traffic into the crosswalk area.

Drivers should remain in their cars as children exit their vehicles. If they are physically unable to do so, drive to the lower lot and park. Parking is prohibited in the car line route during car line hours. Your child should have their book bag, lunchbox, projects etc. ready before you stop your vehicle and encourage your children to move quickly as a courtesy to all the people behind you. Whenever possible, children should exit the car from the passenger side. Children exiting your car from the driver's side should cross in front of your vehicle.

When clear, continue around the horseshoe to the left; **DO NOT do a U-turn and DO NOT back up** to avoid driving around the horseshoe. **DO NOT pull around other cars.** Your impatience could have tragic consequences.

DO NOT stop traffic in front of the school to drop students off on Main Street to avoid car line.

Afternoon Car Line

Car line pick up begins at 3:30 pm and ends at 3:45 pm. The car line moves more smoothly when our families spread out pick-up time between 3:30 – 3:45 pm.

Please do not arrive earlier than 3:21. Arriving too early into the parking lot creates safety concerns for students in afternoon PE classes and blocks crosswalks.

Always display your car line number; teach the number to your child to help speed up the afternoon loading.

There is absolutely no parking in the driveway during car line. If you are volunteering in your child's class, be sure to park in the lower lot.

Form two lanes as you pull into the school parking area. Follow the traffic monitor's directions to the left of the horseshoe.

Pay attention to the car in front of you; don't leave gaps of greater than 3-3 ½ feet between cars. Be aware that cars are behind you and that you need to move up as soon as there is room. Our goal is to prevent cars from obstructing traffic flow on Main Street; the backup of cars creates a severe traffic hazard. Keep your eyes on the car in front of you, not on your phone. Stay alert.

Only right-hand turns are permitted out of the school onto Main Street during car line. Waiting until traffic is clear in both lanes creates a bottleneck; please help keep the traffic flowing.

Parents arriving after 3:45 pm will need to pick their children up from the school office.

Be respectful and polite to traffic monitors; our teachers stand outside during all types of weather to protect YOUR children.
